

UNIVERSITY OF MARYLAND
AT COLLEGE PARK

COMMENCEMENT
MAY 19, 1992

UNIVERSITY OF
MARYLAND AT
COLLEGE PARK

Commencement

May 19, 1992

PRESIDENT'S MESSAGE TO THE GRADUATES

Congratulations on the successful completion of your studies! We feel privileged that you chose the University of Maryland at College Park as your academic home and, on behalf of the faculty and staff, I thank you for being a part of our community during this crucial phase of your intellectual and professional development.

We recognize that in these times of limited resources, it takes extraordinary effort and discipline to support an academic life. For our part, we have endeavored to live up to our commitment to undergraduate and graduate education by providing you with as many opportunities as possible to develop both the broad intellectual interests and the special skills you will need for a successful professional life. We are confident that your college education will prove to be well worth the time and resources you have invested, and that you will take to your future careers the superior standards and values you demonstrated on this campus.

College Park has experienced a great many changes and challenges during your years here. But even during the most difficult of times, we have been able to count on your support and understanding in our efforts to keep this university faithful to its mission of excellence. Today, I want to thank you for that loyalty and cooperation. As you leave the university community to seek wider vistas and fresh challenges, we hope you will not wander too far—at least not in spirit—from your alma mater. We intend to make you as proud of us as we are of you. Please stay in touch.

Good luck and Godspeed to each and every one of you!

WE Kirwan

William E. Kirwan

ORDER OF COMMENCEMENT MAY 19, 1992

Cole Student
Activities Building
9:30 a.m.

Presiding
Dr. William E. Kirwan
President

Master of Ceremonies
Ms. Cathryn Ufema
Department of Theatre

Processional
Symphonic Wind Ensemble
Conductor, Mr. John E. Wakefield

Musical Selection
America, The Beautiful
Samuel Ward/Roger Folstrom
University Chorale
Conductor, Dr. Roger J. Folstrom
Soloist, Ms. Carmen Balthrop

Invocation
The Reverend Weldon Thomas
Campus
Black Ministries Program

The National Anthem
Led by Dr. Roger J. Folstrom

Greetings
Dr. Donald N. Langenberg
Chancellor
University of Maryland System

Mr. Roger R. Blunt

Senior Class Gift Presentation
Rhonda Newton
Kurt Fenstermacher
Marilyn Lynch
Senior Council at Maryland

Remarks to the Graduates
Jeffrey Alan Jones

Remarks
Dr. Kirwan

**Honorary Degree
Presentation**

Address
Dr. William H. Cosby, Jr.

Musical Selection
Spiritual
Soloist, Carmen Balthrop

**Conferring of Doctoral,
Master's and Bachelor's
Degrees**
Dr. Kirwan

**Presentation of Colleges and
Schools**
Deans

Benediction
The Reverend Peter W. Peters
Episcopal Campus Ministry

Alma Mater
HAIL! ALMA MATER
Hail to thee, Maryland!
Steadfast in loyalty;
For thee, we stand,
Love for the Black and Gold
Deep in our hearts we hold,
Singing thy praise forever,
Throughout the land.

Recessional
Symphonic Wind Ensemble
Conductor, Mr. Wakefield

SCHEDULE OF EVENTS

Following the Commencement, individual graduation exercises for colleges and schools will be held at several campus locations. Ceremonies are scheduled to begin at 11:45 a.m., 12:30 p.m. and 2:30 p.m.* Guests are urged to be seated approximately one half hour prior to the designated time for the ceremonies if they wish to observe the student and faculty procession.

Graduates, their families and friends, are cordially invited and encouraged to join with university officials and members of the faculty at the reception to be held on the Mall. The rain location: Grand Ballroom of Stamp Student Union.

Shuttle bus service is available providing free transportation across the campus throughout the day.

Campus-Wide Commencement
 9:30 a.m. Cole Student Activities Building

Agriculture Graduation Ceremony
 12:30 p.m. Memorial Chapel

Architecture Graduation Ceremony
 12:30 p.m. Architecture Auditorium

Arts and Humanities Graduation Ceremonies
 11:45 a.m. Art Gallery
 Center of Adult Education
 Francis Scott Key Hall
 Language House
 Marie Mount Hall
 South Campus Surge Building
 Tawes Theatre

Behavioral and Social Sciences Graduation Ceremony
 12:30 p.m. Cole Student Activities Building

Business and Management Graduation Ceremony
 2:30 p.m. Cole Student Activities Building

Computer, Mathematical and Physical Sciences Graduation Ceremony
 2:30 p.m. Memorial Chapel

Education Graduation Ceremony
 12:30 p.m. Reckord Armory

Engineering Graduation Ceremony
 2:30 p.m. Reckord Armory

General and Individual Studies Graduation Ceremony
 12:30 p.m. Colony Ballroom,
 Stamp Student Union

Health and Human Performance Graduation Ceremony
 12:30 p.m. Health and Human Performance
 Building, Room 2101

Journalism Graduation Ceremony
 2:30 p.m. Tawes Theatre

Library and Information Services Graduation Ceremony
 12:30 p.m. Zoology–Psychology Building,
 Room 1240

Public Affairs Graduation Ceremony
 12:30 p.m. LeFrak Hall, Lecture Hall

*May 18, 1992

Human Ecology Graduation Ceremony
 7:30 p.m. Reckord Armory

Life Sciences Graduation Ceremony
 7:30 p.m. Memorial Chapel

THE UNIVERSITY OF MARYLAND AT COLLEGE PARK

THE CAMPUS

College Park, the flagship institution of the university's 11-campus system, is the most comprehensive institution of higher education, research, and service in the State of Maryland. More National Merit and National Achievement Scholars attend College Park than any other public university in the state.

In fall 1991, undergraduates numbered 25,361 and graduate students 9,262 for a total enrollment of 34,623. This year's College Park operating budget is approximately \$570 million, including financial aid for some 19,099 students.

Students can choose from more than 117 undergraduate and 84 graduate programs leading to degrees. In 1991-92, the campus awarded 5,462 bachelor's degrees, 1,437 master's degrees, and 517 doctorates.

HISTORY

The University of Maryland was founded in 1807 in Baltimore as a faculty-owned College of Medicine. Five years later, the growing institution was renamed the University of

Maryland. The Baltimore College of Dental Surgery, the first dental school in America, became a part of the university in 1840. Later, the university opened schools of pharmacy, law and nursing.

In 1859, the Maryland Agricultural College, which would evolve into the College Park campus, was opened in Prince George's County under a charter secured in 1856 by a group of Maryland planters. This institution became one of the nation's original land-grant schools in 1865. After a disastrous fire on the campus in 1912, the state acquired control of the college and rebuilt it.

In 1920, the state legislature joined College Park with the professional schools in Baltimore to form an expanded University of Maryland. These schools were later grouped with the Baltimore County and Eastern Shore campuses and University College.

July 1, 1988, marked the dawn of a new era in higher education in the State of Maryland when a reorganization of the state's public universities and colleges mandated by the Maryland legislature went into effect. As a result, the five campuses comprising the former University of Maryland were merged with six institutions governed by the Maryland Board of Trustees of State Universities and Colleges to form the new University of Maryland System.

The law that created the new system designated College Park as the state's flagship institution.

THE LIBRARIES

The libraries at College Park constitute the largest university research library system in the Washington metropolitan area. The seven libraries support over 117 undergraduate and 84 graduate programs, serve more than 34,000 students, 2,500 faculty, and 5,500 staff and provide vital resources to researchers, visiting scholars, businesses, and others throughout the state and region. The libraries' holdings include over 2.1 million volumes, 22,680 subscriptions to periodicals, and more than 4.3 million items available in microfilm format. The College Park Libraries also offer several nationally and internationally recognized special collections such as the International Piano Archives at Maryland, the Gordon W. Prange Collection of Japanese-language publications, and the Katherine Anne Porter literary archive.

RESEARCH FACILITIES

College Park is the home of a variety of exceptional research facilities including a computer vision laboratory; a full-scale low velocity wind

tunnel; a 500 liter computer-controlled fermentation system for research in bioprocess scale-up programs; the Center for Automation Research; and a quiescent plasma device (Q machine) for plasma research. Such major facilities as the Engineering Research Center, the Systems Research Center, and the new Institutional Reform and the Informal Sector (IRIS) Center conduct research that is especially significant to the state, nation, and the world.

The Engineering Research Center is a major vehicle for extending the technical and research expertise of the University of Maryland to businesses and industries throughout Maryland. The center is both a catalyst for problem-solving and a clearinghouse for technical information resources.

The Systems Research Center conducts research in systems engineering, artificial intelligence and computer-aided engineering. Supported by a \$21 million National Science Foundation grant, the center operates in conjunction with a program at Harvard University and complements a nationally-recognized cam-

pus program of basic and applied research in computer science.

In November 1990, the Institutional Reform and the Informal Sector (IRIS) Center, funded by a five-year, \$8.9 million grant from the U.S.

Agency for International Development, was established in the Department of Economics at College Park. The center's aim is to support institutional reforms that will foster competitive markets and democratic processes in Eastern Europe and developing countries. An additional \$16.1 million is expected to come from overseas USAID missions to support this project.

College Park will be the home of one of the nation's most important research facilities—the 1.7 million square-foot, \$205 million Second National Archives Building. The facility will house more than half the collection of the National Archives and Records Administration, including some of the nation's most valuable historical documents, among them: the complete records of the Department of State and 11 million charts, maps, photos and documents from World War II and the Vietnam War. The building is scheduled for completion by fall 1993.

The proximity of the campus to national research institutions such as the National

Institutes of Health, the Smithsonian Institution, the USDA Beltsville National Agricultural Research Center and National Agricultural Library, and the Library of Congress ensures that prime research facilities are always available to the university's faculty and students.

UNIVERSITY OF MARYLAND AT COLLEGE PARK ALUMNI ASSOCIATION

Created July 1, 1989, the University of Maryland at College Park Alumni Association is designed to strengthen ties between the university and its graduates and to foster support for the University of Maryland at College Park. All graduating seniors and successful master's and Ph.D. candidates receive a six-month free membership in the association.

THE GRADUATES

Students graduating today from the University of Maryland at College Park follow in the footsteps of many notable alumni who have distinguished themselves in such fields as science, entertainment, the arts, journalism, business, law, medicine, and government.

As a graduate student in mathematics at College Park, Herbert A. Hauptman (Ph.D. '54) worked simultaneously at the Naval Research Laboratory to devise a method for mapping three-dimensional structures of molecules. Three decades later he and Jerome Karle, his

long-time collaborator at NRL, won the 1985 Nobel Prize in Chemistry for their pioneering research. Dr. Hauptman was awarded an honorary Doctor of Science degree by the university in 1985.

CBS News' Connie Chung ('69) worked on the *Diamondback*, the university's student newspaper, and for WMUC, the campus radio station, during her student years. Another successful journalist who received his collegiate training at College Park is Pulitzer Prize-winning science writer Jon Franklin ('70). Franklin, who won two Pulitzer Prizes for his work as a Baltimore *Evening Sun* reporter, currently heads the journalism program at Oregon State University.

One of the university's most devoted sons is A. James Clark ('50), president of The Clark Construction Group, Inc., the parent corporation of such nationally-recognized general contracting firms as The George Hyman Construction Company and OMNI Construction, Inc. A former member of the university's Board of Regents, in 1983 Clark made a major contribution to the College of Engineering establishing the A. James Clark Chair in Construction Engineering and Management.

Other notable alumni include Carmen Balthrop ('71), a former Metropolitan Opera star and currently associate professor of music at

College Park; George V. McGowan ('51), chairman of Baltimore Gas and Electric; Joseph B. Gildenhorn ('51), current U.S. ambassador to Switzerland; Rep. Tom McMillen ('74), Maryland's Fourth District Congressman; Mary Stallings Coleman ('35), the first woman elected to the Supreme Court of Michigan; Fred O'Green ('49), retired chairman of Litton Industries; Len Elmore ('74), Washington, D.C. attorney and CBS sports commentator; Rep. Steny Hoyer ('63), Maryland's Fifth District Congressman; Mathias J. DeVito ('54), chairman of The Rouse Co., and Allen J. Krowe ('54), senior vice president and chief financial officer of Texaco.

ACADEMIC COSTUME

The black caps and gowns worn by the students and faculty in the academic procession have been the traditional costume of scholars since medieval times. They probably represent a kind of ecclesiastical dress, since many of the scholars of that period were members of monastic orders.

Most colleges and universities in the United States have adopted the uniform code for costumes drafted by an

intercollegiate commission in 1983. Each of the three academic degrees "bachelor, master and doctor" has its own distinctive gown and hood. The bachelor's gown has a longer, more narrow,

closed sleeve extending below the knee; the arm fits through a slit at the elbow. The doctor's gown has a full, bell-shaped sleeve trimmed with three bars of velvet. The velvet trim on the gown can be black or a color indicating the wearer's general field of learning; for example, green for medicine or purple for law. A list of department colors follows.

Agriculture/Maize
 Arts, Letters, Humanities/White
 Business Administration,
 Commercial Science/Drab
 Dentistry/Lilac
 Economics/Copper
 Education/Light Blue
 Engineering/Orange
 Fine Arts, Architecture/Brown
 Forestry/Russet
 Home Economics/Maroon
 Journalism/Crimson
 Law/Purple
 Library Science/Lemon
 Medicine/Green
 Music/Pink
 Nursing/Apricot
 Oratory, Speech/Silver Gray
 Pharmacy/Olive
 Philanthropy/Rose
 Philosophy/Dark Blue

Public Administration, Foreign Service/Peacock Blue
 Public Health/Salmon
 Physical Education/Sage Green
 Science/Golden Yellow
 Social Work/Citron
 Theology and Divinity/Scarlet
 Veterinary Sciences/Gray

The most colorful and distinctive part of the academic costume is the hood extending down the back. The doctor's is the largest of the hoods and the bachelor's is the smallest. The bachelor's hood is often omitted.

Silk lining of various colors in the center of the hood indicates the college or university which conferred the degree. Consistent for all degrees is the cap, or mortar board, which has a tassel of black or another color indicating the field of learning. The tassel of the doctor's cap can be gold.

ACADEMIC DEGREES

A degree is awarded for the successful completion of a course of study. There are more than 1,600 different academic degrees currently conferred by colleges and universities nationwide.

The first known degree was a doctorate bestowed by the University of Bologna, Italy, in the mid-12th century. Originally, the doctor's and mas-

ter's degrees were used interchangeably, each indicating that the holder was qualified to instruct students. The bachelor's or baccalaureate, degree only indicated entrance into a course of study preparatory to the doctorate or mastership. Gradually, though, the bachelor's degree came to mean successful completion of one level of study in advance of the higher degrees.

THE DOCTOR'S DEGREE

The term "doctor," meaning teacher or instructor, originated with the ancient Romans for those who lectured publicly on philosophical topics. During the Middle Ages, it was used as a title of honor for men of great learning. It was first made an academic title at the University of Bologna, which was allowed by the emperor to appoint *doctores legum* (doctors of laws). The University of Paris followed suit in the year 1145. Soon after, popes granted the universities the right to appoint *doctores canonum et decretalium* (teachers of the canon law) and, when the study of civil law was combined with that of the canon law, the title was changed to doctor *utriusque juris* (teacher of both laws). The faculties of theology and medicine followed that of law in conferring this title.

A doctorate is given beyond the baccalaureate degree and requires several years of advanced study, the successful completion of a thesis or dissertation, and written and oral examinations. The doctor's degree represents the most advanced earned degree conferred by American institutions. There are two distinct types: the practitioner's degree and the research degree. The first type represents advanced training for the practice of various professions, principally Doctor of Medicine, Juris Doctor and Doctor of Pharmacy. These degrees carry no implication of original research. The University of

The second type is a research doctorate representing prolonged periods of advanced study. A dissertation which usually accompanies the study is intended to contribute substantially to existing knowledge on the subject. The most important of these, the Doctor of Philosophy, no longer has an implication of philosophy for its holder, but represents advanced research in any of the major fields of knowledge. It was first awarded in the United States in 1861 by Yale University. The University of Maryland awarded a Ph.D. for the first time in 1920.

Maryland awarded the first two dental degrees in history on March 9, 1841, and invented the name of the degree, Doctor of Dental Surgery (D.D.S.).

THE MASTER'S DEGREE

The master's degree is an academic honor bestowed upon students who have successfully completed work beyond the baccalaureate. A thesis and an oral examination are usually required. The word *magister* was used by the Romans as a title of honor, but its present meaning can be traced to the establishment of the oldest universities. Organized faculties as they now exist in universities were not known then; academic activity was limited to seven liberal arts. Those who were honored for their diligence and knowledge upon completion of their studies and who had already received the bachelor's degree were called *magistri artium* (master of the liberal arts). In 1920, the University of Maryland awarded its first Master of Arts (M.A.) and Master of Science (M.S.) degrees in fields other than agriculture.

THE BACHELOR'S DEGREE

The bachelor's degree represents completion of a four-year course of college-level study and is the oldest academic degree used by American institutions of higher learning. It was first conferred in America in 1642 on the first nine graduates of Harvard College. Maryland Agriculture College, which later became the University of Maryland at College Park, awarded its first Bachelor of Arts (B.A.) and Bachelor of Science (B.S.) degrees in 1862.

A. James Clark, chairman of the board and president of Clark Enterprises, Inc., (CEI), is a true innovator and entrepreneur, transforming a small regional construction firm into a national giant.

As Clark's business interests grew, Clark Enterprises, Inc., a Bethesda, Md.-based holding company, was formed in 1972 to oversee the management of a variety of business activities, including real estate, communications and commercial and residential construction.

Clark is also chairman of the board and president of the Clark Construction Group, Inc., the holding company of CEI's construction-related concerns and the nation's second largest general building contractor as ranked by *Building Design & Construction* magazine, a leading industry publication. CCG's achievements now include more than 400 projects nationwide totalling over 175 million square feet.

A member of the national engineering honor society Tau Beta Pi, Clark received his degree in civil engineering from the University of Maryland at College Park in 1950.

Following his graduation from the university, Clark began his career as a field engineer with The George Hyman Construction Company, a CCG subsidiary.

By 1960 he became vice president and general manager of the Bethesda-based construction firm, and was named president and chief executive officer in 1969.

In 1987, Clark assumed the title of chairman of the board. Under his direction, the company has grown dramatically, opening regional offices in Boston, New York, Philadelphia and Hollywood, Fla.

A recipient of the Distinguished Engineering Alumnus award from the College of Engineering at the University of Maryland at College Park, Clark has been a loyal supporter of his alma mater. While a member of the university's Board of Regents, he was appointed to a blue ribbon committee to evaluate whether the university should establish a degree program in Construction Engineering and Management. As a result of the committee's evaluation and recommendation, formal courses in that area were first offered in 1984.

Clark was named Man of the Year in 1986 by the D.C. Building Industry Association and was honored in 1987 by the American Academy of Achievement.

A. JAMES CLARK

DR. WILLIAM H. COSBY, JR.

COMMENCEMENT SPEAKER

Dr. William H. Cosby, Jr. is, by any standards, one of the most influential stars of the entertainment world in America today. Through his concert appearances and recordings, on television and in films, and in his personal commitment to support education, Cosby has touched the lives of millions of Americans.

His television series, *The Cosby Show*, which has completed its eighth and final season, is regarded as the most successful television series of the modern era. His books, *Fatherhood*, *Time Flies*, *Love and Marriage*, and *Childhood* all have occupied the number one spot on *The New York Times* bestseller list.

In conjunction with The Carsey-Werner Company, Cosby is producing a new version of *You Bet Your Life*, which is being regarded as the most highly anticipated syndicated series for the fall. The new version of the classic Groucho Marx show will provide Cosby the opportunity to interact with people from all walks of life and from all parts of the country.

Cosby and his partners, Tom Werner and Marcy Carsey, are also producers of *A Different World* which is in its fifth season and is the only program on television which focuses on the college experience.

Cosby's multifaceted career also includes the recent release of a Polygram Jazz album, "My Appreciation," and a new comedy album for Geffen Records, "OH, Baby."

His humor often centers on the basic cornerstones of our existence, seeking to provide an insight into our roles as parents, children, family members, and men and women. He points out the humor in our lives and in doing so touches our hearts.

Cosby, who received an undergraduate degree from Temple University and a master's degree in 1972 and a doctorate in education in 1977 from the University of Massachusetts, has been a crusader throughout his career for a better world and for better understanding between people. Recently, contributions by Cosby and his wife Camille, who recently earned her doctorate in education from the University of Massachusetts, to predominantly Black colleges have brought national attention to the importance of these institutions.

Since her appointment as the nation's 21st Secretary of Labor last year Lynn Martin has worked diligently to promote job security and opportunity for America's working men and women.

In her first year, she has tackled such workplace issues as skills standards, life-long learning, a school-to-work apprenticeship system, health and safety, pension portability, and opportunity for minorities and women.

Under Martin's leadership, the Department of Labor has developed proposals to empower America's working men and women, including Job Training 2000, a nationwide effort to implement the recommendations of the Secretary's Commission on Achieving Necessary Skills (SCANS), as well as the Pension Opportunities for Workers' Expanded Retirement (POWER) plan, the "Glass Ceiling" Initiative, and reorganization of the department to create a new agency focused on the new American workplace.

In her role as Secretary of Labor, Martin plans to upgrade skills at both the managerial and general employee level, build world-class training systems that include voluntary industry standards for accreditation and certification of workers' skills, ensure the successful integration of new technology and human resources to improve productivity, and expand the culture among the leadership of American companies that believes and acts upon the idea

that a strong and effective employee training program is a strategic asset to their companies.

Prior to serving as Secretary of Labor, Martin represented the 16th District of Illinois in the U.S. House of Representatives from 1981 to 1991. During her service in the House, she was the first woman to achieve an elective leadership post when in 1982 her colleagues chose her for the position of vice chair of the House Republican Conference, a position she held for four years.

During her 10-year tenure, Martin served for a time as the ranking Republican on the Budget Committee and led a successful battle to extend civil rights protection to employees of the House of Representatives.

Martin's career in politics began in 1972 when she was elected to the Winnebago County board, where she served for four years. She then served in the Illinois House from 1977 to 1979 and in the Illinois Senate from 1979 to 1981.

LYNN MARTIN

CANDIDATES FOR GRADUATE DEGREES

The May 1992 class roster comprises degree candidates from the undergraduate and graduate programs at the University of Maryland at College Park. As final action cannot always be taken for candidates by the time this program is printed, the list of candidates here is tentative only. The university reserves the right to withdraw or add names. Diplomas (for other than doctoral degrees) will be mailed by the Office of Records and Registrations.
